

Countryside Broiler Feed Range

- A medication-free premium diet in the Nova broiler feed, formulated for the free-range commercial broiler producer aiming at high-performance producers requiring maximum daily weight gain and the lowest cost per kg production cost.
- Provide optimal nutrients in every stage of development with the objective of cost-effective production.
- Four Phase feeding program.
- This range is available in bulk and bags at most distribution points.

FEED FORMULATION

Countryside Broiler feed is formulated using International Formulation Software to give the best optimum solution. Specifications are designed based on the latest research with world class expertise in poultry nutrition and production.

KEY POINTS FOR BETTER BROILER PERFORMANCE:

- Proper pre-placement preparation is required to prevent losses during brooding.
- Heaters, floor temperature, temperature and relative humidity probes, ventilation, drinkers, feeders, etc should be checked/monitored.
- Birds must have easy access to feed and water.
- Clean water will reduce challenges and maximize performance.
- Recording feed and water consumption helps to monitor the flocks progress.
- Cull sick birds as early as possible.

RAW MATERIALS

- Countryside Broiler feed is made of high-quality ingredients and supplemented with minerals and vitamins to achieve the genetic potential.
- Countryside Broiler feed has no animal protein source, coccidiostat or antimicrobial growth promoters.

FEEDING PROGRAM

In order to adjust the nutrient requirement as the broiler grows, it is advisable to follow the recommendation phase feeding program.

| FEEDING PROGRAM GUIDELINE | | | | |
|---------------------------|-------------|----------|-----------|-----------|
| Feed | Pre-starter | Starter | Grower | Finisher |
| | (0 - 7) | (8 - 18) | (19 - 30) | (31 - 35) |
| Feed amount/bird | 160g | 750g | 1600g | 800g |
| Feed Structure | Crumble | Pellet | Pellet | Pellet |
